

## Cucumber Conditioner

### Description

This conditioner is cool, refreshing and sure to be a summer time favorite. This conditioner smells like a fresh cut cucumber.

### Recipe for 1 gallon

1 Gallon Moisturizing Conditioner

.04 lbs Cucumber Distillate (.64 ounces)

### Recipe for 5 gallons

5 Gallons of Moisturizing Conditioner

.2 lbs Cucumber Distillate (3.2 ounces)

### Directions

The simplest way to make this is to add the cucumber distillate directly to the open 1 gallon of conditioner, replace the lid, firmly shake and package. For the 5 gallon bucket simply open, stir in distillate and package.

Note: You could substitute the Moisturizing Conditioner for Basic Conditioner or Herbal Wheat & Oat Conditioner for similar results.
